

200W Landscape Transformer with Timer & Photo Sensor

MODEL: GG9920-0200-01

200WATT
Low Voltage Transformer

Power	200 Watt
Output voltage	12V AC
Input voltage	120V AC

Product information

BUILT IN TIMER AND CLOCK:

You will love the flexibility of this timer. Three mode choices: You can use the built-in clock to control the landscape lights on or off at any time you set; The transformer will turn on at dusk and then turn off at the time you set; The transformer will turn on at dusk and automatically turn off 4/6/8/10 hours later

REPLACEABLE PHOTO SENSOR:

The transformer has a dusk-to-dawn sensor that controls landscape lighting will turn on automatically at dusk and off at dawn. 200 watts transformer, convert 120V AC household voltage to 12V AC safety voltage

EASY INSTALLATION:

This unit is easy to use and works right out of the box with easy instructions. There have 2 hanging holes on the back for hanging the transformer. On the bottom of the back, there is an output terminal for connecting cables

BETTER LONGEVITY:

It has overheating and overload protection to protect the transformer. It has a weather shield on the front to protect the control panel from fade because of the sun, rain, dust, and other severe weather conditions

COMPATIBLE WITH ALL LOW VOLTAGE LIGHTS:

The GOODSMANN low voltage transformers are compatible with all low-voltage landscape lighting systems, including the halogen, incandescent, and LED lights. Enjoy 12 months replacement and after-sales services for using our low voltage transformers

Please confirm the final model, configuration, availability and applicable documentation with our team before ordering.
