

45W Landscape Transformer with Timer & Photo Sensor

MODEL: GG9920-9045-01

45WATT
Low Voltage Transformer

Power	45W
Output voltage	12V AC
Input voltage	120V AC

Product information

Built IN TIMER & CLOCK: You will love the timer function. Set this 45W low voltage transformer on the timer mode, the connected landscape lights will turn on/off at setting time

With Replacement Photo Sensor: This 45W low voltage transformer has a dusk-to-dawn sensor that controls landscape lights will turn on automatically at dusk and off at dawn. With 45 watts' capacity, converts 120V AC household voltage to 12V AC safety voltage

Easy Installation: This 12V outdoor lighting transformer is easy to use and work right out of the box with easy instructions. There has 2 hanging holes on the back for hanging the transformer. On the bottom of the back, there is an output terminal for connecting low voltage cables

Timer Function: This 45W low voltage transformer owns overheating and overload protection function. It has a door on the front to protect the control panel from fade because of the sun, rain, dust, and other severe weather conditions

Compatible With Low Voltage Landscape Lights: This GOODSMANN low voltage transformer is compatible with all low voltage landscape lighting systems, including the halogen, incandescent, and LED lights

Please confirm the final model, configuration, availability and applicable documentation with our team before ordering.
