

300W Stainless Steel Multi-Tap Landscape Transformer

MODEL: GG9113-30001-01A

300WATT
low Voltage Transformer

Power	300W
Output voltage	12V / 15V AC
Input voltage	120V AC
Material	Stainless Steel

Product information

- Easy to Use:** The transformer have ON, AUTO, 2/4/6/8 modes, just press the control button to select your desired modes. With clamp-type terminal blocks, you can easily insert stripped wires without any tools
- Multi-tap Output:** The 300W transformer has 12V & 15V two outputs, and each output has 3 taps. The 15V output allows to compensate for voltage loss on long or heavily-loaded wire runs
- Replaceable Mode Panel:** This plug-in mode module is replaceable, easy to maintenance and replace. Compatible with outdoor landscape lights, lawn lights, underwater lights, and more
- Durable and Weatherproof:** Made from heavy-duty stainless steel shell with transparent PC rainproof door, make it can withstand harsh weather conditions
- Overload Protection:** Built-in overload protection device ensures efficient protection against overloads, prevent equipment damage
