

300W Wi-Fi Multi-Tap Landscape Transformer

MODEL: GG9113-30011-01A

300WATT(WIFI)
low Voltage Transformer

Power	300W
Output voltage	12V / 15V AC
Input voltage	120V AC
Material	Stainless Steel

Product information

- Easy to Use:** The transformer have Wi-Fi, ON, AUTO, 4/6/8 modes, not only press the control button to select your desired modes, but also App compatible to control transformers and manage your lighting
- Schedule & Timer Function:** Set your lighting with ease using multiple modes, including ON & Countdown, Photosensor/Auto, Timer, Astro Timer. Manage weekly schedules with different lighting modes for custom automation
- Multi-tap Output:** The 300W transformer has 12V & 15V two outputs, and each output has 3 taps. The 15V output allows to compensate for voltage loss on long or heavily-loaded wire runs. With clamp-type terminal blocks, you can easily insert stripped wires without any tools
- Replaceable Mode Panel:** This plug-in mode module is replaceable, easy to maintenance and replace. Compatible with outdoor landscape lights, lawn lights,underwater lights, and more

Durable and Weatherproof: Built-in overload protection device ensures efficient protection against overloads, prevent equipment damage. Made from heavy-duty stainless steel shell with transparent PC rainproof door, make it can withstand harsh weather conditions
