Product information

Oil Rubbed Bronze Path Light: These low voltage pathway lights are with oil rubbed bronze finish, will provide reliable and efficient illumination for outdoor spaces. Equipped with a 3000K warm white 3W LED (180 lumens), the frosted glass shade creates a gentle, glare-free ambiance perfect for pathways, gardens, or patios

Metal Construction: These landscape lights and the stakes are metal so you don't have to worry about breaking. The stakes even have a little foot step to help install if you need. These low voltage path lights are designed to withstand harsh outdoor conditions, ensuring long-lasting durability and reliable performance. The oil rubbed bronze finish adds a touch of elegance to the fixture, making it a stylish addition to your yards

Work With Low Voltage Transformers: As these led landscape path lights are attached with cable connectors and with 12V AC input, it is easy for you to connect these landscape lights to your low voltage transformers and low voltage wires. These 12V AC path lights will provide a warm and inviting ambiance, making them perfect for creating a cozy atmosphere in your outdoor space

Easy Installation: These low voltage path lights come with cable connectors to be connected with your low voltage landscape lighting system. Cable connectors allow for greater flexibility in the placement of the lights, as you can easily

extend or shorten the cable length to fit your specific needs. This makes it easier to create the desired lighting effect in your outdoor space. The cable connectors also provide added durability, as they can withstand the bad weathers

Widely Used: The reliable solution for your outdoor lighting needs. Whether you need to light up your driveway, garden path, or even a small road, this set is a reliable choice for your outdoor lighting needs
