Pack size	2PK

Product information

Low Voltage Well Lights: Illuminate your outdoor space with our 5W LED low voltage well lights, designed to enhance the beauty of your landscape. Available in convenient 2-Pack and 8-Pack options, these well lights are perfect for creating a welcoming ambiance and providing reliable lighting for paths, gardens, driveways. The 150-lumen output and 3000K warm white light give a soft, inviting glow that complements any outdoor setting

Work With Low Voltage Transformer: These low voltage in-ground work with any low voltage transformers (not included), making them a flexible and versatile choice for your outdoor lighting needs. The metal construction of the 12V AC well lights ensures that they are durable and long-lasting, able to provide reliable lighting for years to come

With Cable Connectors: These led well lights come with cable connectors, making installation a breeze. While the low voltage transformer is not included, the lights are compatible with any standard low voltage transformer, which ensures that they can be easily integrated into your existing outdoor lighting system. Whether you're creating a new lighting design or adding to an existing setup, these well lights offer the flexibility to fit your needs

Metal Construction: Built to last, these landscape well lights feature metal construction that ensure they can withstand the elements and provide long-lasting performance. With their energy-efficient LED lights source, these 12V AC landscape lights are a great choice for your landscape and yards
