

2W RGBW Low Voltage Path Lights - 6PK

MODEL: GG9121-31501-06A

Power	2W
Voltage	12V AC
Color temperature	2900K
Pack size	6PK

Product information

RGBW Low Voltage Path Lights: Each low voltage path light houses an integrated RGB-WW LED module capable of producing an extensive palette of saturated colors for seasonal accents and celebrations. When a softer ambience is preferred, the same light delivers a continuously adjustable warm-white output that can be dimmed from 100 % down to a gentle 1 % glow

RGBW Color Changing: Our RGBW low voltage path light pairs a full different color palette with a dedicated warm-white channel, so you can shift from functional pathway lighting to festive hues in seconds. The companion app lets you save scenes-holiday reds and greens, or a warm white for everyday way-finding

Work With Low Voltage Transformers: As these RGBW landscape path lights are attached with cable connectors and with 12V AC input, it is easy for you to connect these landscape lights to your low voltage transformers and low voltage wires. These 12V AC path lights will provide a warm and inviting ambience, making them perfect for creating a cozy atmosphere in your outdoor space

Metal Construction: These landscape lights and the stakes are metal so you don't have to worry about breaking. These low voltage path lights are designed to withstand harsh outdoor conditions, ensuring long-lasting durability and reliable

performance

Easy Installation: These low voltage path lights come with cable connectors to be connected with your low voltage landscape lighting system. Cable connectors allow for greater flexibility in the placement of the lights, as you can easily extend or shorten the cable length to fit your specific needs. This makes it easier to create the desired lighting effect in your outdoor space
