Pack size	2PK

Product information

2PK Low Voltage Path Lights: These led low voltage path lights are designed to provide efficient and reliable lighting for your outdoor spaces. Each light comes equipped with a 1W LED replaceable bulb, which delivers a brightness of 40 lumens. The 2700K warm white light offers a soft, inviting glow that enhances the ambiance of your outdoor space without being too harsh

With Replaceable LED Bulbs: One of the standout features of these led path lights is the replaceable 1W LED bulbs. You can simply replace the bulbs without having to replace the entire landscape lights. The replaceable bulb feature provides added convenience and flexibility, allowing you to easily swap out the bulbs when necessary, extending the lifespan of the light fixture and ensuring long-term usability

Work with Low Voltage Transformers: These low voltage led path lights are designed to work with low voltage transformers (Not Included), making them a flexible and versatile choice for your outdoor lighting needs. As these led landscape path lights are attached with cable connectors and with 12V AC input, it is easy for you to connect these landscape lights to your low voltage transformers and low voltage wires

Metal Construction: These led low voltage pathway lights feature a full metal housing and stake, offering long-lasting durability. The oil rubbed bronze finish blends well with outdoor decor while adding a elegant look to your landscape lighting setup. The included replaceable metal stakes are designed with a feet-step feature, providing stability while making installation easier by allowing you to push the stakes into the ground with minimal effort

Easy Installation: These low voltage pathway lights come with cable connectors to be connected with your low voltage landscape lighting system. Cable connectors allow for greater flexibility in the placement of the lights, as you can easily extend or shorten the cable length to fit your specific needs. This makes it easier to create the desired lighting effect in your outdoor space
