Product information

Connected 6-Light Run: Six mushroom-style path lights are linked on one cable for a coordinated walkway layout. Use the run along paths, garden borders, yard edges, driveway sides, or patio approaches

Color-Changing Outdoor Lighting: Multiple color modes and scene options support daily landscape lighting, holidays, parties, and evening garden ambience without changing the fixtures

Mushroom Style with Clear Glass Tops: Clear glass tops and black metal bodies create a clean, modern path light look for lawns, landscape beds, walkways, and garden paths

Metal Body, Stakes and Connectors Included: Metal housings and stakes support outdoor placement, and included connectors help with layout and installation

12V AC Low Voltage System: Designed for compatible 12V AC landscape lighting transformers. Transformer is not included, so buyers should plan the power source, total wattage, and cable route before installation

Please confirm the final model, configuration, availability and applicable documentation with our team before ordering.
